### Course Description, Prerequisites, Corequisites:

This nursing course provides opportunities for participants to consolidate their learning and explore the transition to professional nursing as an Internationally Educated Nurse (IEN). Students develop their nursing theory and practice skills within the classroom, nursing simulation centre and clinical practice settings. Learning opportunities include consolidation and integration of previous learning and further development of skills related to communication, collaboration, time management, organization, critical thinking and decision-making.

**Prerequisites:** A minimum C+ grade in all third term PDD courses (NURS 5265, N5275, N5280).

**Corequisites:**

*Registration in this course is restricted to students admitted to the Post Degree Diploma in Nursing Practice in Canada program.*

### Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Consolidate and integrate their learning to transition, further develop and advance their nursing practice.
- Demonstrate the ability to consistently deliver safe, competent care to clients.
- Explore workplace issues within the practice setting.
- Develop professional nursing skills (assessment, planning, intervention, evaluation) for a variety of organizational climates within the Canadian clinical context.
- Demonstrate the synthesis and integration of theory, practice, and research while working with clients (individuals, families).
- Apply management and leadership theory throughout the clinical practice experience.
- Apply concepts related to population health, primary health care, and health promotion while working with individuals, and families with acute or chronic complex health care problems.
